

Diabetes Ireland invites application from suitably qualified Senior Podiatrists to work as part of an integrated high risk footcare service in **Cork City & County**.

As a **Senior Podiatrist** working in the community, with strong linkages to secondary care services, the postholder will have the vision and drive to bring together professionals working in different areas of healthcare in the regional referral area to deliver a high risk diabetes footcare programme. Together, you will provide optimal diagnoses and treatment in order to improve outcomes for patients who are at increased risk of, or have developed foot complications.

You will be responsible for the development and continued provision of a quality, responsive and effective footcare service to both prevent deterioration in foot health and to minimize the necessity for hospital admissions for limb amputations across all care groups.

#### Qualifications

Each candidate must on the closing date of competition hold:

- (a) BSC (Hons) in Podiatry of the National University of Ireland or an equivalent qualification.  
Or
- (b) Be on the list of podiatrists/ chiropodists approved by the Health Service Executive to practice in the publicly funded health service on or before the 30 April 2010  
And
- (c) have a minimum of three years satisfactory post qualification clinical experience  
And
- (d) Have the clinical, managerial and administrative capacity to discharge the functions of the role

**Salary: €45,120 - €53,287 based on experience. 37 hours per week. The post will carry an initial one year contract.**

**Application Form, Job specification and further information available on [www.diabetes.ie](http://www.diabetes.ie)**
