## **Education & Awareness**

Diabetes Ireland focused on children with diabetes and their families in 2022. Our 'Back to School' awareness campaign was held in August 2022, which aims to help teachers, SNA's, parents, and diabetes teams with the transition for children with diabetes heading back to school. Many schools supported our "Go Blue for World Diabetes Day" campaign for which we are extremely grateful.

We held our first post covid in-person events for younger children living with Type 1 diabetes and their families with summer picnics held in Dublin and Cork and Christmas parties held in Cork, Donegal an Dublin. More than 120 families attended one or more of these events.

In March 2022, a new campaign #CKD was launched on World Kidney Day with the Irish Kidney Association highlighting that people living with Diabetes should be aware of their kidney health. Working in partnership with the Irish Kidney Association, CKD Steering Committee and AstraZenca to create an effective campaign to promote awareness of

Highlighting the personal story of Rachel who was diagnosed with type 1 diabetes at 8 years of age and later diagnosed with stage 4 chronic kidney disease at 28 years of age. Reaching an audience of 667,589 in August 2022. Diabetes Ireland continues to promote this campaign - see www.diabetes.ie

Diabetes Ireland **Free e-learning** programme for those with **Type 2 Diabetes** CAN BE MANAGED Why? **OVER 90%** 234,398 TYPE 2 What?

How?

Log on to: www.diabeteseducation.ie

In January 2022, Diabetes SMART was launched as a free interactive online education platform. Developed by Diabetes Ireland, with support from Novo Nordisk, this free programme meets the increasing demand from people with Type 2 diabetes who want to learn more about their condition & how to manage it effectively. See wwww.diabetes.ie for more information.

Advocacy

develop a 10-year National Diabetes

Strategy that provides vision,

leadership, and direction so that the

HSE can recruit the staff required

and improve the quality of life for people living with diabetes and

health service of diabetes

complications

#### **AIM**

To see improved public services, better & quicker access to good quality of care, diabetes technology, medications, better recognition of diabetes & the diabetes community by the Government & its public officials

To achieve improvements that will benefit the diabetes community

reduce the long-term costs to the

New budgetary funding allocated for a range of HSE diabetes priorities

We ran awareness campaigns promoting the importance of getting both Diabetes Ireland also called for the the influenza vaccination setting up of a diabetes task force to and pneumococcal vaccine

for the diabetes community

Our health promotion team delivered 28 community diabetes education sessions to a range of community groups and workplace staff and 35 diabetes education workshops were delivered to the staff of Nursing and Long-Term Residential Homes and **Intellectual Disability Centres** 

2023 Pre-budget submission proposed a number of immediate actions for implementation to improve the quality of life for over 297,000 people living with diabetes and reduce the long-term costs of preventable diabetes complications
